### About Arlington Fights Racism

In 2019 a group of concerned Arlington citizens came together to form Arlington Fights Racism in response to local racist and hate-filled writings.

Through our work, we observed the roles that institutional racism and a lack of representation and transparency have played in our town. As a result, we focused our work on building a grassroots election movement.

**Our goals are to increase the diversity of representation at all levels of town government, challenge institutional racism, reverse the harmful precedent set by our town's improper use of restorative justice with large, affected communities, and create a town that is truly welcoming and inclusive for all Arlington's residents.**

## Arlington Fights Racism

**Our platform:  
We proactively  
work to  
uncover and  
dismantle  
prejudice,  
bigotry,  
racism and  
discrimination  
in Arlington.**

Sharing a vision of Arlington as a more inclusive and welcoming place

## I pledge to pursue and support policies that:

1. Actively work to increase the diversity of representation and the cultural competency of Arlington's town government, councils, and committees in order to address the institutional racism in our community.

2. Require annual implicit bias and cultural competency training for all employees, as well as elected and appointed officials of Arlington's town government, appropriate contracted agencies, including the Arlington Police Department and the Arlington Public Schools.

3. Proactively develop a Communications policy as part of Arlington's Code of Conduct and make it clear to all town employees, current and future, that any statements accessible to the public that contravene the Code of Conduct will result in a clear disciplinary process that may ultimately result in termination.

4. Reverse the harmful precedent set by Arlington's improper application of Restorative Justice in response to a police officer's racist and prejudiced writings, by creating a town policy with clear standards for the future use of restorative justice, and a public statement asserting that the process used in the 2018 Arlington Police Department case was incomplete and unsuccessful.
